## FIRST EXPERIENCES: SCHOOL

*Dear Parents:*

*You and your child are about to embark together on one of the most exciting and important adventures in life, your child's formal education. Along with the excitement that most new experiences bring, there are also questions and fears, from both parent and child that need to be addressed.*

*Our mission is to address your questions, fears and concerns. Our collection of resources and materials is specifically developed to help you and your child navigate through this important segment of your child's life.*

Reading to your child is an important part of the educational process. Children who are comfortable with books have an easier time with classroom and homework assignments. So, read to your child and encourage them to read to you. When you teach your child to trust in the pleasure reading can bring, you have given them a gift that will last a lifetime.

This brochure offers a listing of materials to help both children and parents make this transitional time a positive, enriching experience. We also have backpack kits especially designed for children entering preschool, kindergarten and first grade. These kits contain workbooks, flashcards and materials designed to get your child ready for their school experience.

If you would like to check out a backpack kit or require help locating any of the suggested materials, please inquire at the Children's Services Desk and our staff will be happy to assist you.

Best wishes for an excellent school year!  
Cindy Wall, M.L.S.  
Children's Librarian
